Enough is Enough! It's Time to Act!

As we stand here in line more and more jobs are lost. Each week half a million Americans lose their jobs! The Government says things are getting better... Better for who?

Services and benefits are slashed by billions, while these billions are then spent on useless weapons and handed over to the wealthy. Millions more go to vicious anti-popular governments like the Nazi regime in El Salvador and racist South Africa.

The Corporate and Government policy of "More guns and no butter", "War not peace", "Racism not justice" costs jobs and destroys our lives, families and community.

With millions upon millions out of work. With people starving and being thrown out of their homes. With more and more people out of work each day and a government that is doing nothing to help....

WHAT CHANCE DO EACH OF US ALONE HAVE OF FINDING A GOOD JOB? OUR BENEFITS ARE MEAGER AND RUNNING OUT. WE FACE COMPLETE POVERTY AND RUIN!

Today, the monopoly corporations have the power and you can FEEL the results....BUT TOMORROW

UNEMPLOYED COUNCIL FORMING

An organization of Newark area unemployed is forming to join in the massive Nation-wide fight over the issues so important for our survival. (SEE DEMANDS ON OTHER SIDE OF FLIER)

WE'RE NOT ALONE

Our organization joins hundreds of unemployed groups across the country and a growing movement of unions, civil rights organizations, religious organizations and community groups that are fighting the negative program of big business and the Reagan Government with a positive program for... JOBS, JUSTICE AND PEACE!
